About the job

Your Tasks

As a Databricks Expert, you will help clients design and implement modern data architectures, working on strategic transformation programs and hands-on delivery. You will collaborate with business stakeholders, IT teams, and project groups to unlock the full potential of Databricks and drive business success.

Your area of responsibility includes:

- Strategic Advisory & Architecture – Design scalable, secure, and high-performance data platforms
- Implementation & Development – Build data pipelines, models, and integrations leveraging Databricks and associated technologies
- Project Execution – Support data transformation and migration initiatives in the insurance and financial services sectors
- Best Practices & Knowledge Sharing – Establish Databricks best practices, contribute to pre-sales efforts, proposals, and internal training

Your Profile

- Proven hands-on expertise in Databricks, gained through client projects or internal data initiatives
- Strong knowledge of modern data architectures (Delta Lake, Data Mesh, MDM), data modelling, and cloud-based platforms
- Experience with ETL/ELT tools (e.g., dbt, Azure Data Factory), Python and pySpark
- Familiarity with cloud platforms (Azure, AWS, or GCP) – practical project experience is a plus

- Ability to translate business needs into technical solutions – and vice versa
- Fluency in German and English
- Proactive mindset with an entrepreneurial spirit, eager to shape and grow our Data & AI offerings

Your Benefits

- **Your career, your way:** Our Personal Growth Model and Coaching & Leading approach offer you close support, both for your long-term development and your day-to-day business. Through our Academy, you'll have access to a diverse range of training programs, including specialized leadership programs, language and certification courses, and one-on-one coaching. And with our flexible career model and Fluid Company approach, you're in control of your path, deciding where you want to go and how fast you want to get there.
- **Career & private life:** To promote a healthy balance, we strive to offer all positions on a part-time basis whenever possible. Our mobile working policy gives you the flexibility to work from home or from one of our offices in Germany. With "Mobile Work Abroad", you can work up to 50 days per year from other EU countries (as well as UK, NOR, ISL, LIE, CHE). We also offer 30 days of annual leave, additional time off for special family circumstances as well as various sabbatical options.
- **Flexible travel options:** With a fixed monthly mobility budget, you can travel flexibly and sustainably for both personal and professional purposes. The budget covers various modes of transportation, including public transport, long-distance buses, trains, scooters, and car-sharing options.
- **Value-focused corporate culture:** Our corporate values—responsible, energized, and together—are at the heart of our culture. You'll experience them firsthand at our Power Days, where you can engage in charitable initiatives; in communities like the Women's Network or our Mindfulness Guild; through regular Great Place to Work employee surveys; at special events, in-house fitness groups, and much more.
- **Compensation & monetary benefits:** We offer fair and attractive salaries, consisting of a fixed and a performance-based component and grant the full performance-based component even during maternity leave. We also regularly benchmark our salaries against the market using external studies and actively monitor our figures for equal gender pay. In addition, you'll enjoy monetary benefits such as access to health and wellness programs like EGYM Wellpass and exclusive corporate shopping discounts.
